SEDSCO's Intelligent TV (ITV) is a fully customisable, leading edge HDTV system, incorporating a TV server, SEDSCO's Smart TVs and all required software. The system requires minimal hardware and can operate on existing infrastructure.

ITV MANAGEMENT

Easily allocate channels to ALL TVs via an interactive map of the facility.

3 Simple Steps:

1. Select channels required.

2. Create channel groups for Free to Air TV, Pay TV, etc.

3. Administer TVs, i.e. enable/disable, set-volume limit and more...

SEDSCO can design and implement an end-to-end TV solution for you today.
