SEDCO Overview

SEDCO Nurse call

=

Unmatched reliability

Nurse call systems to suit every need:

Trinity MX² - Premium Nurse call system.

e-7000 - Cost-effective Nurse call system.

MCV5 - Nurse call system utilises existing building wire.

SEDCO have an all-inclusive approach to effectively integrating communication technologies into busy hospital and aged care environments.

Here at SEDCO, we believe in producing the best systems, that provide the latest in nurse call functionality and integration, whilst being the most reliable.

We have developed a host of applications in order to increase efficiency and provide the best patient care. Applications are driven by intuitive client software, this makes administration tasks faster and easier to perform and allows more time for patient care.

Our applications also keep a log of all events, providing vital business information to assist in the management of the hospital or facility.

Founded in 1969, proudly an Australian company and with our systems installed in the majority of Australian hospitals... SEDCO are Australia's most trusted manufacturer and provider of healthcare communications.

Seamless Integration through SEDCO Applications:

- RFID - PAGING - REPORTING - INTELLIGENT TELEVISION
- BMS - EMAIL - PATIENT BED MANAGEMENT - SECURITY
- FIRE - Wi-Fi - PATIENT ENTERTAINMENT - SMS
- PATIENT INTERACTION MANAGER - STAFF ALLOCATION
- MEDICAL RECORDS - PATIENT INFORMATION
